THE HOLLANDER

Located in the vibrant Wicker Park and Bucktown neighborhoods, **The Hollander** sits in the historic 1905 five-story brick Hollander Fireproof Warehouse adjacent to its sister property, **The Robey**. This high-design Social Stay from French design studios Ciguë and Delordinaire is equipped with 66 beds, including 12 private rooms, a café serving freshly brewed coffee, personal lockers, ground floor laundry facilities and an onsite bike rental and repair shop. The Hollander, developed by Chicago-based Convexity Properties and operated by Grupo Habita, is the home of the first-ever Social Stay, where guests will be able to engage and connect with each other prior to their visit through Instagram. **The Hollander's** integration with social media forges a community where the most-digitally connected travellers can meet and share their adventures during their stay. **The Hollander** lies at the intersection of Damen, Milwaukee and North Avenues where two communities merge into one of the city's creative epicentres. Perched directly atop the city's famed "L" train, **The Hollander** serves as a gateway to galleries, cafés, studios, independent boutiques and live music venues.
